Konoha Code Alliance GitHub Repository 🐉

Welcome, esteemed members of the Konoha Code Alliance, to our sacred digital repository where coding prowess meets ninja camaraderie! 💥

Purpose:

This GitHub repository serves as the cornerstone of our coding journey, providing a centralized platform to store, collaborate on, and showcase our coding projects, scripts, and wisdom.

Organization:

Each member has their designated folder within the repository. It's essential to keep your folder organized for easy navigation and collaboration.

Creating Your Folder:

To create your folder:

1. Navigate to the root directory of the repository.

2. Click on the "Create new file" button.

3. In the "Name your file..." field, type your username followed by a forward slash (/) and then the name of your folder (e.g., `username/my_folder`).

4. Add a README.md file to your folder to provide a brief description of your contributions.

Saving Codes and Folders:

Uploading via GitHub Website:

1. Navigate to your folder.

2. Click on the "Upload files" button.

3. Drag and drop your files or folders, then commit changes.

Uploading via VS Code:

1. Open VS Code and navigate to your project folder.

2. Install the GitHub Pull Requests and Issues extension if not already installed.

3. Initialize your folder as a Git repository.

4. Commit your changes and push them to your GitHub repository.

Collaborative Spirit:

Let's embrace the spirit of collaboration by reviewing each other's codes, providing constructive feedback, and learning from one another. Together, we'll sharpen our skills and elevate the entire alliance!

Greetings from Hokage :

Dear esteemed members of the Konoha Code Alliance, I extend my warmest greetings to each of you. May this GitHub repository serve as a bastion of knowledge and collaboration, guiding us towards greater heights in the realm of coding. Let's code with passion, collaborate with purpose, and grow together as true ninja developers!

Happy coding,

Co Hokage Pritesh Sahare 🍃
